Dear Mr. Rector Yevstahii KRYZHANIVSKYI

We are very sorry about the last events in your country and we are sharing the international compassion about the unpleasant situation.

We are aware and grateful about all your efforts to carry out the activities and to ensure in the same time the safety of the students and staff and also of the entire prestigious University of Oil and Gas.

We are expressing all our hopes that the justice and a peacefull solution will soon occur and we have the strong belief and confidence that all our projects will continue and we will achieve the outcomes.

In the modern world the negotiation , the mutual understanding and the respect of the people will and human rights are the most powerful instruments for solving any conflict .

In these moments we are not only your partners in the Project „Partnership for Climate Change Mitigation” but also your friends.
